Bathroom Locator Sprint Plan 4

[SCRUM board on Linear](#)
[Release plan](#)
SCRUM Master: Kavya
Sprint Dates: Nov 18th - Dec 2nd

Release 1.0

Revision Date: 12/02/25

Scrum meeting times:

Mondays: 1:30 pm to 2:30 pm (biweekly longer sprint planning + previous sprint retro meeting. Alternating weeks are just the 15 min/30 min meeting with the TA)
Wednesday: 9:00 pm - 9:15 pm
Saturday: 11:00 am - 11:15 am

Sprint goals:

In this sprint, our main goal is to finish implementing the add / edit bathroom features, bathroom verification, and to add the option to filter based on different bathroom details.

Breakdown of User Story Tasks

Infrastructure Tasks:
- Deploy app (Emily)
- Add logout functionality (Kavya)
- Update details ui (Emily)
- User marker (Cheryl) (carried over from Sprint 3)

User Story 3 : As someone who's non-binary it would be helpful to see bathrooms that are gender neutral so that I can find a bathroom that I can use
- Story 3-1 Frontend: add gender details into details page (Harshita)
- Story 3-4 Add gender details into add bathroom form (Harshita)

User Story 5 : As a user of this app, I want to be able to tell if a bathroom actually exists before navigating to it
- Story 5-2 Frontend: implement design (Kavya)

User Story 8 : As a user, I want to see bathroom amenities (period products, number of stalls,) so I know what to expect.
- Story 8-2 Frontend: add amenities details to details page (viewing it) (Harshita)
- Story 8-3 Add amenities to add bathroom form (Harshita)

User Story 9 : As a community member, I want to be able to add a new bathroom to the map to help others using this website
- Story 9-2 Select location on map of new bathroom, form to add details of a new bathroom after user selects location of bathroom (Austin)
- Story 9-7 Ensure that a user is logged in to be able to add a new bathroom (Austin)

User Story 10 : As a user of this app, I want to be able to add details to a bathroom added by another user to give information about the bathroom to others using the app.
- Story 10-2 Frontend: Add edit button in description, be able to edit fields in form, make sure user is logged in (Cheryl)

User Story 11: As a user of this app, I want to be able filter bathrooms that match specific requirements (ex: gender neutral)
- Story 11-1 Filtering button for gender (Raeed)
- Story 11-2 Filtering button for stalls (Raeed)
- Story 11-3 Filtering button for amenities (Raeed)
- Story 11-4 Filtering button for cleanliness (1 to 5) (Raeed)

User Story 12: As a user, I want to be able to search for specific cities on the map even without allowing it to access my location.
- Story 12-1 Add search bar (Austin)

Initial Burn Up Chat (Purple dotted line)
